netDocShare

Incredibly Connected!

Integrate NetDocuments - Live View, Edit, and Sync NetDocuments content in Teams, SharePoint, and Web apps

netDocShare provides your firm with the ability to Live View, Edit, and Sync any NetDocuments content within Microsoft Teams, SharePoint, or your favorite web application.

You can simply pin the netDocShare app on the Microsoft Teams Navigation bar or add to Team Channel Tab or add to a SharePoint page or Web application page to view NetDocuments content stored in Cabinets, Workspaces, Folders / Sub-Folders, CollabSpaces, Saved Searches and Filters.

Why netDocShare

- Simplified Interface for non-technical users
- Rapid Deployment and Configuration of WebParts
- Easily live-view NetDocuments content such as Documents, CollabSpaces, Saved Searches, Filters in SharePoint

Features of netDocShare

netDocShare Sync

Automatically sync SharePoint & OneDrive for Business libraries and lists with NetDocuments.

netDocShare Save

Ability to "save" or "move" SharePoint document library-specific folders and files to NetDocuments.

netDocShare Hybrid

Search both NetDocuments and SharePoint content from a single integrated search interface.

netDocShare Admin

Ability to centrally manage and enforce netDocShare settings including enable/disable/default-value setup of properties.

Co-Authoring using Office Client

Co-author Office (version 2013 or above) documents in SharePoint and Teams using Office Client like Word or Excel.

NetDocuments Thread & Tasks Integration

Add new or edit existing Thread conversations or action Tasks within SharePoint and Microsoft Teams.

netDocShare Content Browser add-on

Ability to include this component in any .NET/Java/PHP/Angular/React app to seamlessly lookup content from any ND source.

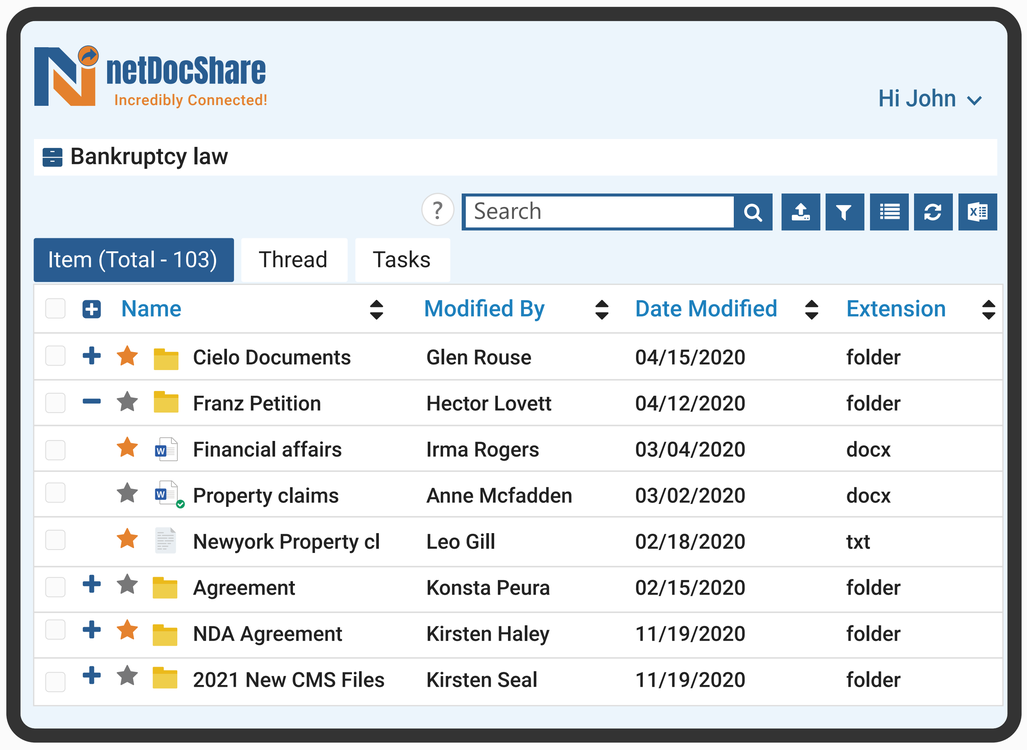
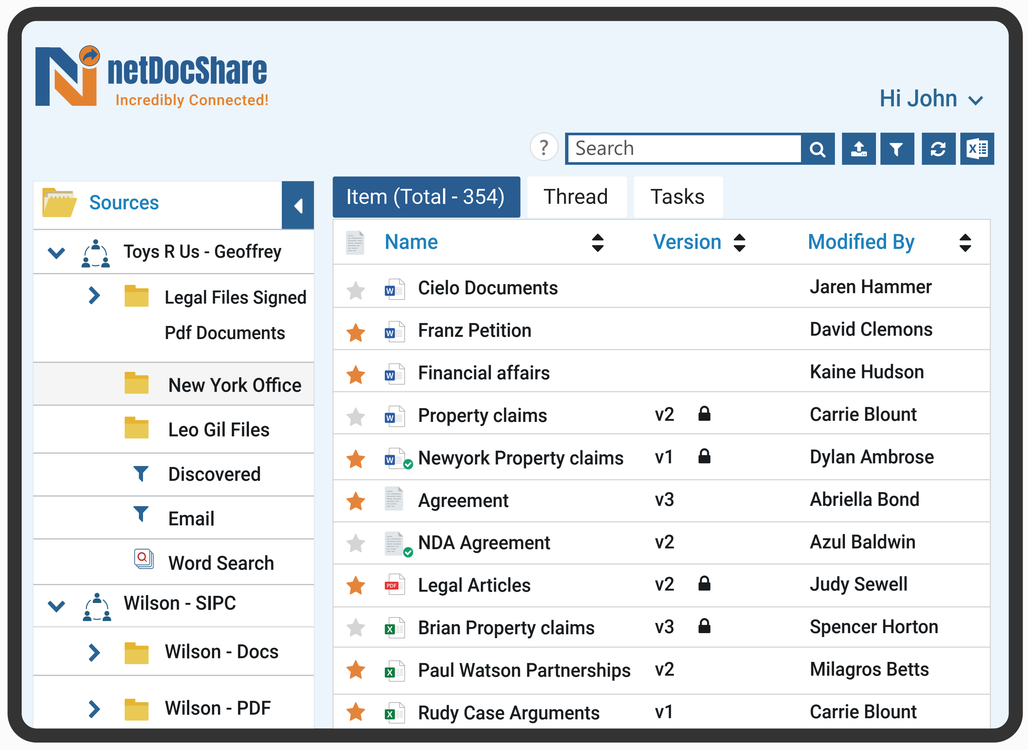
netDocShare supports several views of your NetDocuments content in SharePoint & Microsoft Teams



Normal View

Access Documents, Saved Search, Filters in folders, Sub-folders, Cabinets, or Workspaces easily via just point and click.



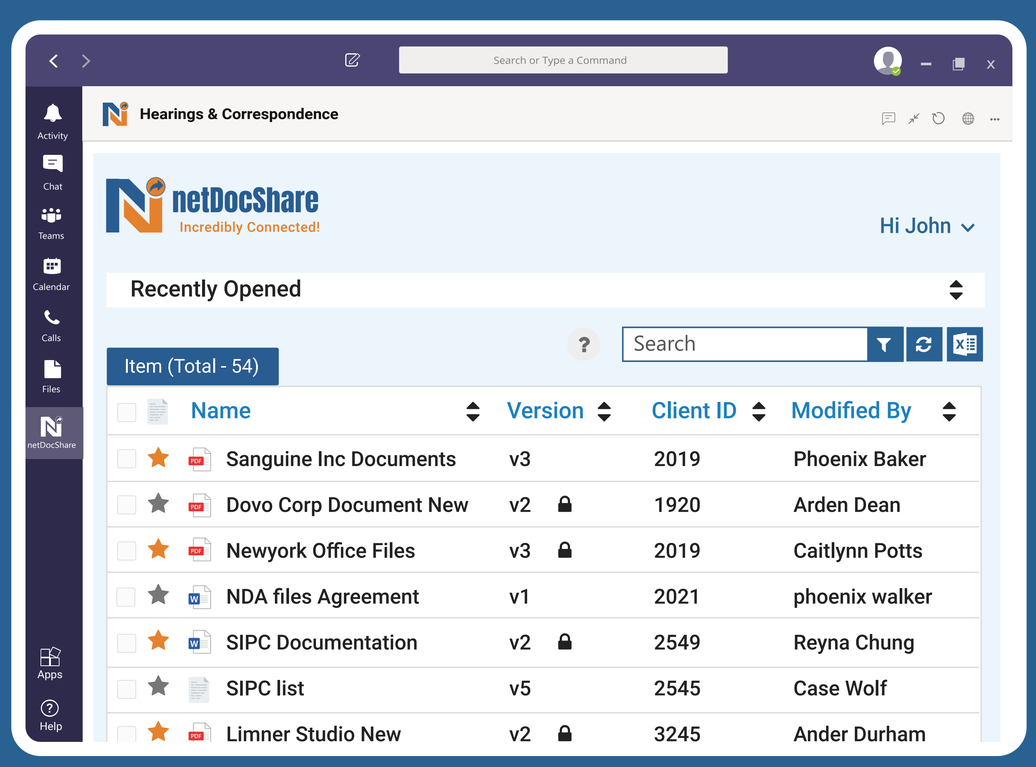
Tree View

Folder tree structure displays documents from multiple sources (folders, workspaces, cabinets) and enables a superior user experience.

- View and share CollabSpace content with internal and external users.
- External users can access CollabSpace in netDocShare without an additional NetDocuments license.

Recent Documents View

Users can specify and search “most recently accessed,” “most recently opened” or “most recently edited” documents.



Favorites View

Displays all favorite documents, categories, or workspaces under a separate view
